Submission for the investigation "Central West Investigation"

Description:

We camp fish 4wheel drive and ride we love our bush areas and respect them immensely with these proposals and the real threat of closures and lockouts how will I be able to enjoy the solitude of some remote area camping if all bush users are cramped in a small area. The impact of heavy use in a small zone will also no doubt play into the hands of these observations and assessments regarding bush use which will be totally slanted at misuse of our beloved bush. So in this election year and with all the scrutiny about this issue I declare my objection to any closure and lockout proposals.
