Submission for the investigation "Central West Investigation"

Submitted on **02-09-2018**

Information provided by the author:

Title: **Mr**

First Name: **Nathan**

Last Name: **Kerr**

Description:

Absolutely no need to reduce the size of Victoria's state forests. The current systems work fine and gives the community plenty of area and options for recreation and enjoying our native bush land. Locking up public land is not The answer to conservation. There are enough National parks. Parks Victoria cannot manage the land in there care as it is. Leave our state Forrest alone
