## Submission for the investigation "Central West Investigation"

Submitted on **01-09-2018**

Information provided by the author:

Title: **Mr**

First Name: **Shane**

Last Name: **Fitzgerald**

Description:

We as people have the right to access these areas for pleasure, food, sport, learning etc And now you take this away from the people of the land. I don't agree with the decision to close these Forrest's and turn them into national parks. You are creating a fire hazard and big one at it to be closing them The wombat Forrest is in better condition than the Grampians national park now that is a disgrace. Wasps everywhere dead wood everywhere creating the worst hazards of all not just in bush but on the main streets and around houses and cabins. I have been using the wombat Forrest for over a decade now and love the area I prospect I explore I use the timbers to warm my family but never cut down trees only take what is already down. I research history and follow the old timbers through the bush chasing the routes of the beginning of Australia and I show my kids this So don't take away what it is ours we are the ones who maintain and look after this land
