## Submission for the investigation "Central West Investigation"

Submitted on **01-09-2018**

Information provided by the author:

Title: **Mr**

First Name: **IVAN**

Last Name: **NOVACIC**

Description:

As a Gold prospector who lives in South Australia, my options are next to none in this state, to do what i love and that is metal detecting for gold nuggets. Victoria is the place that i have to travel to, so i can enjoy this wonderful hobby, those who do the right thing, which is 99% of us, refilling holes etc, from what i have witnessed has next to no detrimental impact on the bush, nature has a way of recovering, quite quickly i might add, so any extra N.Parks are not needed, or welcomed. We are the people, and we are the ones who put you into power, you have no right, a select few, most likely greenies, to take away what God gave us as a right, this earth belongs to all of us, to enjoy as long as this enjoyment is done in the right manner, which 99% of us do. Please do the right thing by the people, and allow us to continue enjoying what we have been for many years to come, as outdoor activity is a must to cleanse the soul, and more people should be encouraged to do these things, not have them taken away from us. From a very concerned citizen of this (wonderful country currently), but if these measures are introduced , will prove yet again that there are some in this world who think they are gods and have the right to take our freedom`s away.
