Submission for the investigation "Central West Investigation"Submitted on **06-09-2018**

Information provided by the author:

Title: **Mr**First Name: **Chris**Last Name: **Lyons**

Description:

As a prospector and family man if you were to close areas available for my weekend hobby I would then not visit these areas. My family and I would holiday and relax elsewhere and spend our money elsewhere. This would mean that the thousands of dollars we are currently spending in small towns and localities would go elsewhere. This would also mean that many small businesses in these towns would not benefit from the income that we provide. Tourism is just that and without the income from people who currently use the bush and not the ones you are hoping to introduce will be of a negative effect to these small towns. We need to keep things the way they are and the introduction of these new areas will not deter the bad elements of society and only increase them. This would be due to the fact that people like us look after the Bush and keep an eye on it and it's unruly entrants. Without this the trash dumpers and people who disregard the Bush will feel like it's a free for all. I hope The Australian Bush remains just the way it is! Regards.
