Submission for the investigation "Central West Investigation"

Submitted on **10-09-2018**

Information provided by the author:

Title: **Mr**

First Name: **Rhys**

Last Name: **McGregor**

Description:

I am making this submission because I feel that this change is only going to stop those who respect the bush, and follow its rules from using and enjoying it. Those who take wood from where it is not permitted, dump rubbish, 4wheel drivers who don't use designated tracks, shooters who animals not to be shot will continue to do so after the change, and because you will have locked out the respectful user they will more likely get away with it because there will be no one to report them. As a father of two young children, a shooter, and hobby prospector, I fear that by the time my children are old enough for me to pass on these skills there will be no where I can take them to teach them
