Submission for the investigation "Central West Investigation"

Description:

I am a vivid outdoor user and have been most of my life, we camp, we fish , we hike and love our photography. I am also a semi professional prospector and like many we do take due care while out in our great forests. I feel that if and when these changes go ahead it will not only effect myself and others but will also damage the economics of the smaller towns in Victoria where these proposed changes will take effect. These smaller towns are already struggling and this will just push them over the edge, it will not boost tourism but will turn it away. I have spoken to many hotel owners in the central Victoria region and many are concerned as most of the income comes from many outdoor users
