Submission for the investigation "Central West Investigation"

Submitted on **11-09-2018**

Information provided by the author:

Title: **Mr**

First Name: **Joseph**

Last Name: **Slatter**

Description:

The proposal to turn multiple state forrests into national parks is not only selfish but greedy, the existing national parks are infested with blackberries and are under used. All you have to do is go drive around in them to see that. The bush users who enjoy the forrests not only enjoy the bush but control the wild deer for FREE and utilize the carcasses! With All the national park that is in deteriorating condition and becoming a bushfire risk how can they want more? It dosent even make sense
