Submission for the investigation "Central West Investigation"

Description:

I believe the change soo much land from state forest to national park is a huge mistake and a completely un australian thing to do! Im all for preserving the bush for future generations but i want future generations to be able to enjoy it the way i am used to. Taking soo much hunting space away would be a huge kick to the teeth of the hunting community and an expensive mistake when already the national parks that don't allow hunting will soon have culls taking place to reduce numbers. Wake up to yourselves and think about the millions of people who use the bush.
