Submission for the investigation "Central West Investigation"Submitted on **05-09-2018**

Information provided by the author:

Title: **Ms**First Name: **April**Last Name: **Robinson**

Description:

I reject the changes proposed. I live in the country so that I can use the bush and plus I travel to other bushes. I am a member of the Victorian Endurance Riders Association and love the rides organised through different bushes, they are all different and so beautiful. We are already limited to which bushes a group of horse riders can ride through and this will limit more. I train my horses in the bush and this will be limited what I have to give up the sport I love cause training along roads is dangerous there are drivers out there that don't slow, move over or even stop if needed and makes me scared riding along the road. The bush is safe and I find the 4wd, motorbike riders, push bike riders and anyone else I have come across out in the bush are more understanding and caring. I also hunt and 4wd. The bush is for the public it's there's it's good for sports and health of people what you and to increase the obesity rate. City people ask come out and use the bush gets them out of the house aslo helps the economy of the small towns. Leave the bushes alone, lift the bans on the ones that have bans leave them as a place for everyone to enjoy.
