NO national park in the wombat state forest !!

I have lived in the middle of the wombat state forest my whole life ! I walk dogs in it, horse ride, motorbike bike, drive in it, camped, collected firewood even fossicked for gold all since I was a small child, and still continue to do so to this very day !

To not allow this to happen anymore would be an absolute disgrace ! My father was a tree feller his whole life, it was his livelihood for many years until he retired. If he were alive today to hear this he would be utterly disgusted.

Leave the wombat state forest as it is ! There is nothing wrong with how it is used, For all different walks of life.

Melissa  
NO NATIONAL PARK !!!!!
