Submission for the investigation "Central West Investigation"

Description:

The proposal to change a number of State Forests into National Parks is flawed. Reducing the activities that ordinary Australians can do (and National Parks will do this) will also reduce the number of people, who want to protect these forests, from entering the area. I spend a lot of time in remote bush areas and am disgusted by the amount of rubbish I come across. Reducing the number of "eyes and ears" in such pristine areas will allow even more of this illegal dumping to occur. Do NOT change the status of these State Forests. The attached picture is an example of illegal rubbish dumping that I recently encountered.
