Hello VEAC,

I would like to oppose turning the WOMBAT FOREST into a National Park. I am a resident of Daylesford which is surrounded by Wombat Forest. I enjoy walking and doing some gold prospecting in this area as my main recreational activities in this area and prospecting would be abolished in the National Park if it were to be implemented. I have some friends that do prospecting in the Wombat Forest and also camp in some of the areas. I enjoy visiting National Parks in Victoria and other states but I don't think that the Wombat State Forest is worthy of National Park status.

Please take this email into consideration. I am against the Wombat Forest becoming a National Park

Regards

Louise Graves
