Dear Government, my husband and I ride horses, we are both over 50 years , we have very limited outdoor facilities for the pleasure horse rider. To us the out doors is a respected and valued place to ride, We are very good at reporting bad behaviour and dumping in state forests. We enjoy hours (not an hour) but hours of riding with in these areas. Tracks we follow and some roads, road users have no regard for riders so taking our riding areas away and or making so small they are useless to go riding. We are very low impact and are respectful of the environment we ride in, even the rail trails have cattle grids making another place we can't ride .

Please don't close us in

Regards Paula Rhodes
