Submission for the investigation "Central West Investigation"

Submitted on **10-11-2018**

Information provided by the author:

Title: **Mrs**

First Name: **Donna**

Last Name: **Papworth**

Description:

There needs to be a reconsideration of the proposed changes, which removes the ability to ride horses but allows for the use of 4wds. Many people utilise this land for different recreational purposes, many which involve the use of horses. Those who brought in the area and reside there based on being able to access beautiful areas to ride safely have not been provided appropriate consultation, if there had been surely things would not be at this point. I do not support or agree with the proposed land change.
