Submission for the investigation "Central West Investigation"

Submitted on **15-11-2018**

Information provided by the author:

Title: **Mr**

First Name: **Shane**

Last Name: **Richardson**

Description:

Please dont lock up any more bush or create more national parks... I love the bush and spending time there with my wife and children is very important to me for good mental health. It is the only way I can recharge after working all week to pay overcharged bills to keep my refrigerator switched on. If people are the problem with conservation in these areas then punish the ones who litter and disrespect these places with fines that take a lifetime to pay off and forever banish them from these places. Dont punish the ones who only take photos and leave footprints.
