Submission for the investigation "Central West Investigation"

Submitted on **17-11-2018**

Information provided by the author:

Title: **Mr**

First Name: **Jan**

Last Name: **Have**

Description:

Please note that transferring state parks to National parks is against the Australian way of life, dating back till the first white man arriving here. Public land are for the public to enjoy with all the relevant pastime and working activities, including fossicking, horse riding, wood collecting, dog walking and more. Changing to national parks will make them into heaven for rabbits, foxes and other vermin, and as the park rangers are short of money already it will get worse.
