Submission for the investigation "Central West Investigation"

Submitted on **26-11-2018**

Information provided by the author:

Title: **Mrs**

First Name: **Heather**

Last Name: **Ivers**

Description:

Apart from the unreasonable restrictions on our right of freedom in this country, it is the real possibility of increased fire risk. Wombat forrest is so very close to the increased urban sprawl, why would you want to put people and wildlife in the path of an out of control raging fire as a result of the tradition practised of an unkept locked up national park forrest area, it beggars belief.
