Submission for the investigation "Central West Investigation"

Submitted on **27-11-2018**

Information provided by the author:

Title: **Ms**

First Name: **Carol**

Last Name: **Geraghty**

Description:

My sons & I have done lots of long distance trekking, having completed both the bicentennial national trail & the Tasmanian trail with horses & our dog where allowed. We have also spent many hours riding horses closer to home. We travel lightly using pack horses, this has enabled our family to spend quality time together whilst learning & understanding about nature. These experiences have enabled my sons to develop resourcefulness & resilience, and a strong desire to maintain access to our state forests. We also enjoy walking our dog in the bush & it is important to include him on family camping trips. My sons are autistic, spending time riding their horses in the bush is very calming & grounding for them improving their quality of life. I find that my own mental health is vastly improved by walking my dog in the bush. Please keep access for all bush users, and maintain our state forests for the enjoyment of all people.
