## Submission for the investigation "Central West Investigation"

Submitted on **27-11-2018**

Information provided by the author:

Title: **Mr**

First Name: **Daniel**

Last Name: **Ryan**

Description:

I am against the creation of any new national parks or movement of any current state or crown land to any form of national parks. There is enough national park available for the community already and to deny access to any more public space is unreasonable. Whilst I value conservation and protection of flora and fauna this can be achieved on the current status of much public land rather than the 'lock it up' approach. Public land should and must remain public land for all people whether they be horse riders, prospectors, bushwalkers, hunters, dog walkers.
