Description:

Hi, My submission for the Greater national park will be that while I can still enter the park, I would not be able to enjoy the park as I do now. Now I hunt, 4x4, camp, bush walk with my young son. Having free access for myself and others in my community and friends to come and go to do what legally we want. By going to these forests we also use local town facilities like cafes, bakeries even IGA for some shopping for camping or for dinner on the way home, my day can generally turn into a day out with my family, I have many special memories of time spent in these forests. I have nothing against National parks as they serve their purpose in protecting the special country we live in. My experience using the State Forests in this area goes back to the early 1990s and they are as great today as then. Please consider the use of these forests by working class citizens not just those who have a political agenda as users now have an interest in keeping them wonderful just as much as those who wish to close them down. Thank you
