Description:

The State Forests need to be available to all to appreciate, use and enjoy. Bushwalking, horse riding, walking of dogs, firewood collection, legal hunting.....gives us all an opportunity to appreciate, enjoy and manage these beautiful forests. These pursuits also encourage people to travel to small country towns and areas, also generating income for the local areas. Local communities feel 'attached to/part of' the team that manage these amazing resources too - feel invested in them. Lock them off/make them a National Park - feral animals will get out of control, fuel loads will increase bushfire risk.....loss of riding tracks force horse riders out onto open roads etc etc. The State forests belong to US.
