Submission for the investigation "Central West Investigation"Submitted on **05-12-2018**

Information provided by the author:

Title: **Mr**First Name: **ROBERT**Last Name: **SALMEN**

Description:

, This will effect me personally. The loss of :- Economic benefits to local towns and the Australia economy as a whole. Personal Health Benefits are derived when I go bush walking or prospecting. Bush Users are your tourist that provide economic assistance to small country towns in the golden triangle. Firewood collecting.. Not only how it will make it harder to collect wood. But also the increase Dollars to either purchase wood or increase in travel to collect it. The loss of Horse Riding and the enjoyment that you get from just riding your horse through the bush. The loss of Prospecting and Metal Detecting areas and the benefits you get from prospecting. Loss of Hunting to reduce feral animals that are killing our native wildlife and destroying farmers crops. Stating, if hunting is stopped in these regions our wild life and farmers will suffer. 4 Wheel Driving and the closures of tracks. Loss of the Logging Industry and how it will effect local towns and the people that live there, that rely on the logging to survive. Closure of bush tracks that our fire fighters would use in case of bush fires in the regions. Restriction in camping in some areas. Increase of Bush Fire risks in the regions by not having a well managed bush. Will bee keepers be locked out? These are only some of the reasons for keeping the bush as it is at present ,NO CHANGES,!!!!!!!
