Submission for the investigation "Central West Investigation"

Submitted on **09-12-2018**

Information provided by the author:

Title: **Mr**

First Name: **Ziggy**

Last Name: **Ziogas**

Description:

I have been a constant user of State Forests, National Parks, coast lines and Public Land since 1968. My children are now respectful users of these lands. Unfortunately they will never see parts of National Parks that I was free to experience in my youth. I have kept up to date with the expansion of National Parks in Victoria and the reasons given for their justification. Your VEAC Report for the Central West of Victoria tries to explain why this must be a NEW National Park for the protection of numerous declining assets. The clear intimation is that Public Land and citizen use of it is responsible for the degradation up to today. Sustainable controlled protection ... without restriction to most recreational pursuits ... really? Which National Park has been successful with this open style of protection? Why all the gates? Citizens are becoming aware of what is happening. No more NEW National Parks.
