Description:

Dear Sir/Madam, I am writing this letter to show my disgust about this submission. you are taking my rights and every one who uses the BUSH for family outings, horse riding prospecting walking the family pet, ...etc. To many to mention . I think it is wrong that a few people can just come and close the BUSH down . The majority of people are more green than the greenies out there , I for one being a prospector enjoy the beauty of the bush .and clean any rubbish I may come across, If you close the bush up and let it grow like it has in the High country , there will more fires than ever before. We love seeing the small animals running from tree to tree and it pisses me off when they have a burn off with no respect for wild life and small plant etc... Do not close this land up, or you will have a LOT of unhappy people.
