To whom it may concern,

Please be advised that the Prospectors and Miners Association will not be making a detailed submission to this Inquiry.

Our position of no confidence in VEAC remains unchanged. We believe they find it impossible to give true consideration to submissions that may differ from their personal views and ideologies and therefore they cannot (and do not) make balanced recommendations.

We have been dealing with VEAC and its predecessors for 30 years and have realised that all the time and resources we have devoted to making submissions has been wasted.

We will be requesting consultation at a higher level as the Inquiry proceeds.

Please record this as our submission to the Inquiry.

Yours sincerely
