Submission for the investigation "Central West Investigation"

Description:

I would like to voice my concerns about the investigation being conducted regarding the impact prospectors, campers etc have on the environments within Victoria and the possible closure of the forests to the general public for recreation. Being part of a prospecting club PMAV Central Goldfields, I am aware of my role interacting within the grounds I am prospecting, and the proper way to leave an area I have worked over. The benefit of myself working an area is that I collect all the cans, bottles and refuse left from others, in an effort to keep the bush clean.
