Submission for the investigation "Central West Investigation"

Submitted on **27-06-2017**

Information provided by the author:

Title: **Mr**

First Name: **Vladimir**

Last Name: **Kondratiev**

Description:

Recently have begun doing some gold fossicking in the Golden Triangle environs. Exclusion of fossicking from parks area's is has negative consequences for business in the area. Loss of patronage will not made up by ordinary park tourism! list of advantages 1 to get as many people to be outdoors improves the health & well being of the population at large 2 fossicking brings much need cash to the area's business 3 With years of neglect the areas suffer from dumping of Rubbish. One of the PMVA's charter is to collect rubbish whilst fossicking & disposing correctly eg iron lead bullets glass Al cans plastics etc This is a saving to parks valuable resources 4 Using metal detectors shallow digging has minimal environmental impact by filling in holes when finished Parks should be for everyone to enjoy at large rather than locking up for the select few
