**PUBLIC LAND USE**  
 Land Conservation Council Recommendations  
 Box-Ironbark Investigation  
 Environment Conservation Council

1:350 000

— Major Roads	--- Box-Ironbark investigation area
— Other Roads	--- Box-Ironbark study area
— Major Rivers	--- LCC study areas
	--- LCC study names

  

<b>National Parks</b>	<b>Natural Features Reserves</b>	<b>Community Use Areas</b>
<b>State Parks</b>	<b>Plantations</b>	<b>Earth Resources</b>
<b>Regional Parks</b>	<b>Services and Utilities</b>	<b>Uncategorised public land</b>
<b>Reference Areas</b>	<b>Land not required for public purposes</b>	<b>Commonwealth Land</b>

  

<b>Nature Conservation Reserves</b>	<b>Water Production</b>	<b>State Forest</b>	<b>Historic and Cultural Features Reserves</b>
A Regional parks	C Wildlife Reserves	E Hardwood production	I Historic reserves
B Multi-purpose park	H Flora Reserves	F State forest	J Historic areas
C Wildlife Reserves	D Water production	G Eucalyptus oil production	
H Flora Reserves	E Hardwood production	U Uncommitted land	
I Historic reserves	F State forest	J Historic areas	
J Historic areas	G Eucalyptus oil production		
	U Uncommitted land		
	J Historic areas		

**Notes**

1. Colors are based on groups of the original recommendation categories. The groups reflect Council's new public land use categories - see Chapter 10.
2. Recommendations are the result of 11 past LCC investigations - refer to list in Chapter 10.
3. Wildlife reserves are shown as other nature conservation reserves or natural features reserves, in accordance with the Department of Natural Resources and Environment's proposed classification of January 1996.
4. Areas previously recommended for bushland production, eucalyptus oil production or as uncommitted land are colored as for State Forest, but are separately identified.
5. The Goulburn River from Seymour to the Murrumbidgee, and the Ovens River downstream from Wangaratta, are heritage rivers.
6. All recommendations are shown as approved by government, including the recently legislated Children Box-Ironbark National Park.
7. Small areas are not able to be shown at this scale, for example highway parks, roadside conservation areas and utility easements.
8. Crown land in several townships that were cities, small cities, towns or boroughs at the time of approved LCC investigations is not subject to recommendations. That land, and other township land, is shown as uncategorised public land.
