eg.  Cattle, primary use, sheep for wool, secondary

\* Prepared from satellite photographs taken 12 December 1972  
(for area west of longitude 149°E) and August 1972  
(for area east of longitude 149°E)  
Small uncleared areas and partly cleared areas have been  
mapped as cleared land

Extensive areas of Public Land are used for forest grazing and apiculture  
The areas involved vary considerably from year to year.
