- Notes:
1. Coloured areas are public land. White areas are Commonwealth, local government or private land.
 2. Public land use categories are those from the government-accepted recommendation R1 of the 2017 VEAC Statewide Assessment of Public Land Final Report. Existing state parks (outside the Central West Investigation area) are still labelled as such because the proposed amalgamation of this category with national park has not yet been legislated.
 3. Public land on this map includes land held by public authorities in freehold title.
 4. A hatched pattern shows recommended changes in public land use as compared with those proposed, approved or varied by government following earlier investigations.
 5. For details of numbered recommendations see report text and appendix 1.
 6. Some small areas of public land may not be shown, such as public housing sites.
 7. Small blocks (generally less than 0.1 hectare) may not be visible at this scale. A higher resolution map can be viewed at www.veac.vic.gov.au.
